PETERSBURG, VA., April 19.—Schlatter, the "Divine Healer," is in Petersburg, and to-day announced that he would preach at the 8:30 a. m. service next Sunday afternoon, when he would freely heal all afflicted people. Referring to his powers of foretelling events, the faith healer said that God had not yet revealed to him who would be the next President, but that he thought Taft would be the man. Speaking of Bryan, Schlatter said that he was the best man in the country, but stood no chance of being President unless he changed his politics.

The plans have been about completed and the local office is ready to advertise for bids as soon as they are advised from Washington.

CARNEGIE AND ELIOT TO SPEAK IN RICHMOND

ANDREW CARNEGIE.

PRESIDENT ELIOT.

Invited to Address Peace Meeting in This City and Will Probably Accept—Movement to Arouse Public Sentiment Here.

Plans are now under way for a large public meeting in this city some time during the early part of June for the purpose of arousing a strong public sentiment in Richmond for the promotion of international arbitration. Mr. Andrew Carnegie and President Eliot, of Harvard University, will be invited to address the meeting, which will be held under the auspices of the Virginia League for International Arbitration, of which ex-Governor Montague is president.

The leaders of the movement in this city feel confident that Mr. Carnegie will gladly accept the proffered invitation to speak in Richmond on a subject in which he is so greatly interested. His services were recognized recently during the National Peace Congress in New York, when he was decorated with the Legion of Honor, through Baron D'Estournelles de Constant, a member of the French Senate.

The questions of international peace and international arbitration are receiving the most careful thought on the part of the leaders of almost every civilized country throughout the world. The United States government has held always a

leading position in this movement, mainly through the efforts of President Roosevelt, Secretary Root and others. The larger cities throughout the country have formed large and effective arbitration and peace societies, but as yet the movement has not been given in the South that careful consideration which public questions of such great import are wont to receive. Richmond is, therefore, to be congratulated upon the prospect of hearing at an early date two such distinguished advocates of the cause of arbitration as Mr. Carnegie and President Eliot, and especially so, coming, as the meeting will, a few months before the conference at The Hague.

The Virginia League for International Arbitration, of this city, was represented at the National Peace Congress, held in New York this week by its president, ex-Governor A. J. Montague, who is expected home to-day. The president of the league will announce in a few days the appointment of fifteen vice-presidents throughout the State. Eight of these have been chosen already, but the officers of the league will not give out the names at present.

PURITANS YIELD; SUIT DISMISSED

Make No Further Fight Against Amalgamation With American Guild.

Litigation recently instituted to prevent the amalgamation of the American Guild and the Modern Puritans, has been brought to an end by action taken by Alpha Council of the latter organization in Norfolk.
That body met Thursday night and adopted strong resolutions, not only approving the amalgamation, but rescinding a resolution theretofore passed, calling for the institution of the suit, and declaring it abandoned.
The lawyers employed to bring the suit are instructed not to proceed further, but on the other hand to ask that the litigation be dismissed.
This action seems to meet with the approval of both orders, and the consolidated concern does not expect further trouble from the one taken over.

FOR TEMPERANCE.

Vigorous Fight Being Waged at Radford—Election Tuesday.

(Special to The Times-Dispatch.)
RADFORD, VA., April 19.—As the date of the local option election draws near the fight grows hotter and hotter. It is the absorbing question in Radford to which all others have given place, and until the battle of the ballots Tuesday the question of "to be or not to be" as regards the saloons will grow in importance.
The temperance people are working night and day with a zeal worthy the Crusaders of old, and believe that the morality of the town and of the public morality will be served by voting the wet ticket—these citizens are also standing boldly by their convictions.
It is a question not of the good element of the town as opposed to the bad, nor of saint against sinner; it is a plain battle of opinion. Men never have seen things alike, and never will. It must be settled, therefore, by the ballot, the minority yielding to the majority.

EPISCOPAL COUNCIL.

Many Delegates Will Attend Meeting in Warrenton.

WARRENTON, VA., April 19.—The Council of the Episcopal Church of the United States will meet in Warrenton on the 15th of May, and a large attendance is expected. Fully 150 delegates will be here for several days.
Mr. J. D. Eggleston, Jr., State Superintendent of Public Instruction, will deliver an address in the Town Hall on Tuesday night. Mr. Eggleston is a gifted and forcible speaker, and it is important that as many of the county taxpayers hear him as is possible.

Threw Rice Anyway.

(Special to The Times-Dispatch.)
BOYDTON, VA., April 19.—The young people here have a custom to deluge all newly-married couples with rice to such an extent that this place has, into that state in this place have a mortal dread of having to pass through this ordeal. A newly-married couple yesterday, leaving for a bridal tour, thought they would outgeneral the rice-throwers, and immediately after the ceremony jumped into a buggy and drove rapidly to the next station below here; but the young couple got on to it, and some eight or ten of them, young lady and gentleman friends of the bride, got on the train and met them as they came on, and to their amazement, rained down the rice upon their unwilling heads.

To Improve Roads.

(Special to The Times-Dispatch.)
GREEN BAY, VA., April 19.—The board of supervisors of Prince Edward have voted to petition Judge Humbley for an election to be held all over the county to determine if the voters whether the county shall issue \$100,000 of bonds for the purpose of macadamizing and otherwise improving the roads in this county.

West Hanover Presbytery, After Long Debate, Is Against Union With Northern Church.

THE TEMPERANCE MATTER UP

Great Spirit Is Evident in the Discussion—Dr. Moore Preaches Fine Sermon.

(Special to The Times-Dispatch.)
CARTERSVILLE, VA., April 19.—West Hanover Presbytery adjourned last night, after one of the most interesting meetings held for some years. Matters of much importance came up for discussion and disposition, and some of the warmest and most enthusiastic debates heard in this conservative body in many years were listened to with great attention by a large number of people.
The question of the articles of agreement with the several reformed churches of America, which is now the leading topic in all the Presbyterian churches of the country, came up for discussion on Wednesday afternoon, and the debate occupied several hours. Almost every delegate present, both of the elders and the ministry, speaking either pro or con. Strong speeches were made both for and against the article. Those who spoke against the articles took the position that the adoption of the articles would eventually mean organic union of the Southern and the Northern Presbyterian Church. Those speaking in favor of the articles took the ground that they would prove useful in the foreign field and in the border States between the North and the South.
It was brought out in the debate that a considerable majority of the presbyteries in the Southern Church already voting had favored the adoption of the articles. The matter is to be finally decided by the time of the meeting of the General Assembly in Birmingham, early in May.
The presbytery voted against the adoption of the articles by a large majority.

Extend Rural Delivery.

(Special to The Times-Dispatch.)
GREEN BAY, VA., April 19.—The rural free delivery of Washington has ordered an extension in rural routes 1 and 2 from this office, beginning June 1st. Harry P. Kaufman, carrier on route No. 2, will cover twenty-five miles, making his route three miles longer than at present, as he only travels about twenty-two and two-tenths miles now. Walter W. Filippin will have an extension, though not very much further than the route he is serving now. The service is being patronized by nearly all who live along the routes, and those interested are anxious that all they can do to promote the service, as it is found so much better in every respect than the star service.

Temperance Question.

The temperance question came to the fore on Thursday morning, and was discussed with great spirit by Rev. J. C. Feltner, who introduced a resolution overruling the General Assembly to establish a permanent committee on temperance. The debate upon the question was exhaustive and spirited. Many who spoke expressed themselves as being in favor of the position assigned to the Southern Presbyterian Church as being opposed to the progress of the temperance cause. The resolution of Mr. Feltner's was finally adopted by practically a unanimous vote.
Dr. Walter W. Moore preached a most excellent sermon on Wednesday evening upon the subject of "Family Religion." It was reckoned one of the most masterly discourses delivered before the presbytery in many years. The presbytery, by a unanimous vote, ordered the sermon printed and introduced a resolution overruling the General Assembly to establish a permanent committee on temperance.

How to Fool a Lazy Liver with Artificial Exercise

EVERY serious Sickness has a small beginning. And, in nine cases out of ten, that beginning is made in the Bowels.
Constipation is the beginning of most diseases. It paves the way for all others. Lack of exercise, hasty eating, improper food, are its first causes. Laziness, and postponement, permit it to grow into Chronic Constipation, which means life-long Discomfort. It isn't necessary to be sick-a-bed, you know, in order to be mighty uncomfortable. Even a slight indigestion affects the nerves, dulls the mind, and obscures the merry sunshine of Life.
The time to adjust the Bowels is the very minute you suspect they need adjustment. —If your tongue is slightly coated, —If your breath is under suspicion, —If your head feels a trifle heavy or dull, —If digestion seems even a little slow, —If Heartburn, Belching, Colic or Restlessness begin to show themselves, —That's the time to eat a Cascaret. It acts as pleasantly as it tastes. It is as congenial to your Bowels as it is to your Palate. It stimulates the muscular lining of the Bowels and Intestines, so that they mechanically extract nourishment from the food and drive out the waste.
The only way to have Cascarets ready to use precisely when you need them is to carry them constantly in your pocket, as you do a Watch or a Lead pencil. The ten cent box of Cascarets is made thin, flat, round-edged, and small, for this precise purpose. Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "COC." All druggists. 740

A colored physician called on him the day he was cut, and did not go back again. The girl is under arrest. Jealousy was the cause of the tragedy.
